# BODACIOUS™ KITCHEN

THE ULTIMATE IN KITCHEN ENGINEERING

*“The love of beauty is taste.  
The creation of beauty is art.”*

FERRUCCIO LAMBORGHINI

# THE ULTIMATE IN KITCHEN ENGINEERING

Destined to stand the test of time, the marble countertops are cut from the same quarries that supplied the stone for ancient Roman statues and the wooden cabinetry is fashioned from the finest, sustainably harvested wood, hand-picked from the lush forests of Italy.

The metal framing echoes the precision engineering of Lamborghini's legendary engines, while the finest high-quality leather accents offer a touch of sophistication and elegance.

The Automobili Lamborghini Bodacious Kitchen is an experience that words simply can't do justice, centuries of refinement waiting for you to experience the beauty and elegance of Italian design at your fingertips.

# AD PERSONAM CUSTOMIZATION

Lamborghini Ad Personam, the tantalizingly exclusive customization program, has now been extended to the world of luxury kitchen design with the introduction of the Bodacious Kitchen.

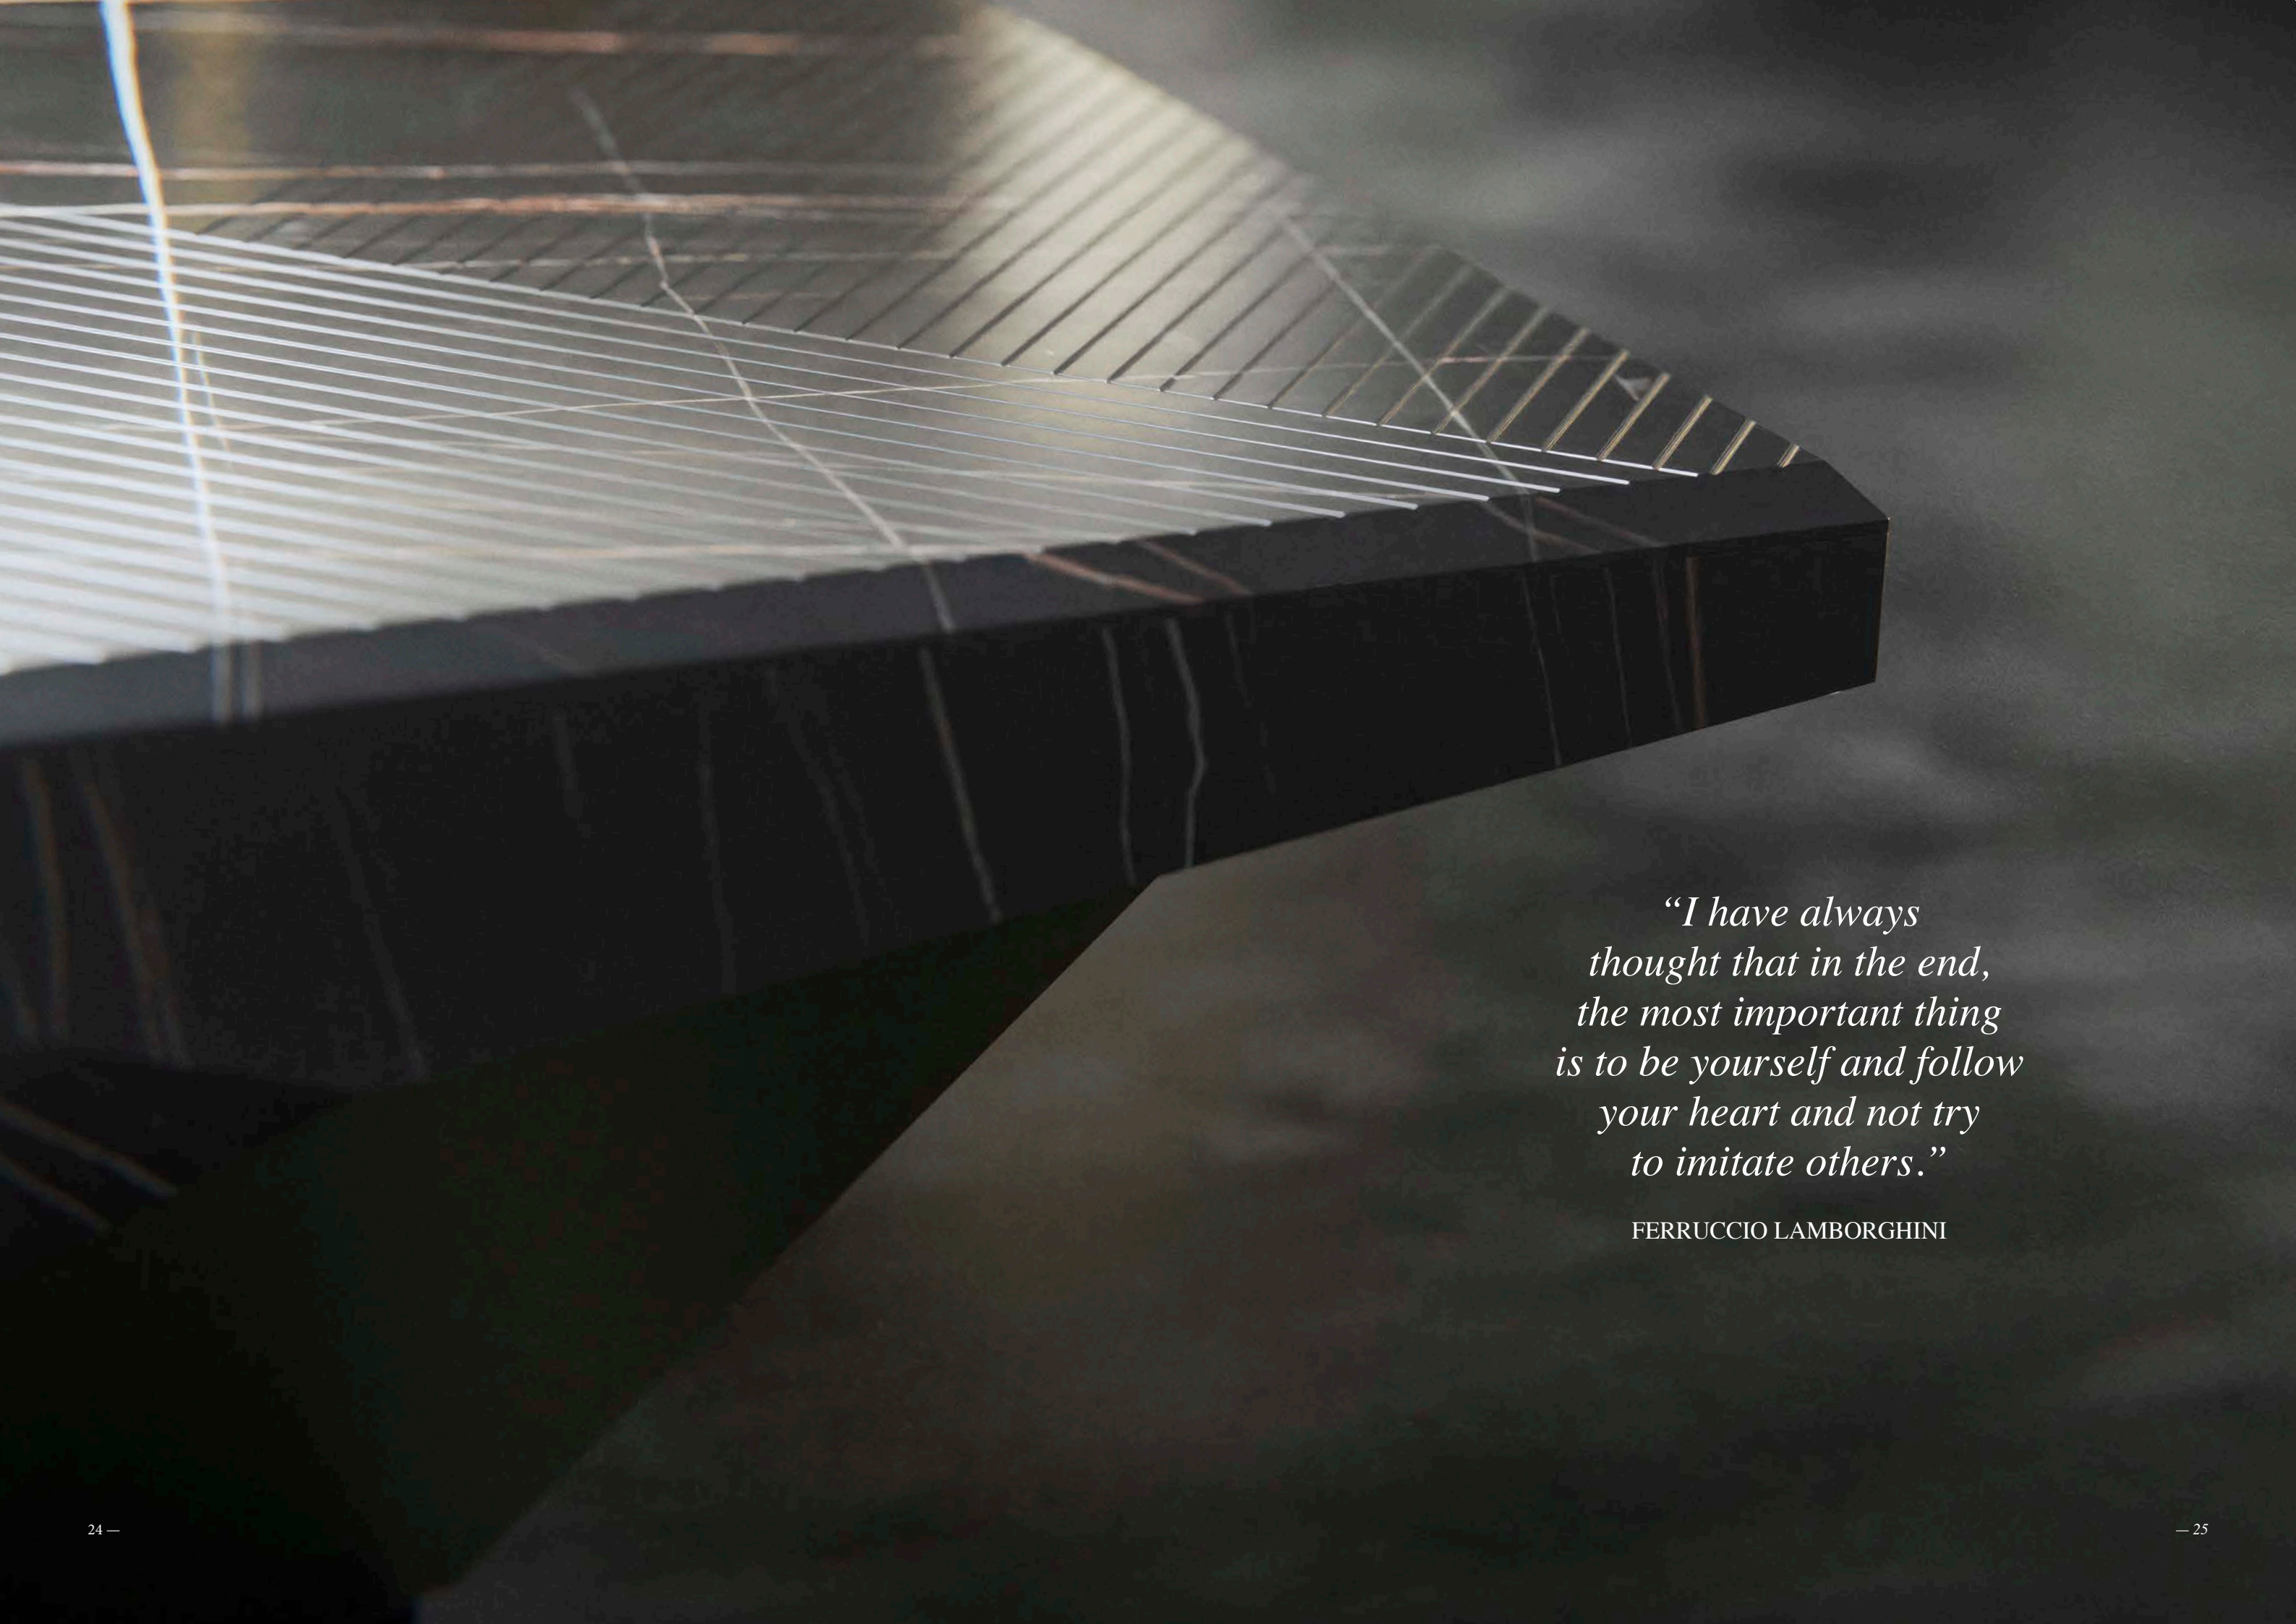

This new offering allows customers to now achieve the same level of individuality and bespoke craftsmanship in their kitchen as they can with their Lamborghini car.

This includes the Forged composites by Lamborghini. The material is crafted using carbon fibers that are molded with resin under high pressure, resulting in a product that is not only incredibly strong and lightweight but also versatile and adaptable to a wide range of shapes and sizes.

The Forged Composites were previously only used in cars and for the first time ever, they are now available as an interior finish for the Bodacious Kitchen.

*“I have always  
thought that in the end,  
the most important thing  
is to be yourself and follow  
your heart and not try  
to imitate others.”*
